APEAX.COM.AU

COMPREHENSIVE AUTOMOTIVE FILM SOLUTIONS

Apeax leads the charge in revolutionizing the Protective Film Industry through the creation of highly innovative film technologies. Our focus on innovation and next-generation products shines through in our automotive protection films, which feature hydrophobic and self-healing properties, unparalleled clarity, and exceptional adhesive strength.

Our global management team brings 40+ years experience of combined experience in installation and manufacturing. This expertise spans a range of products, from Paint Protection Films (PPF) and Tints to Microfiber Towels and premium PPF Tools, ensuring sophistication and excellence in every product we offer.

APEAX has continuously evolved to become a leading global supplier of protection films, with an extensive supply chain network spanning numerous countries.

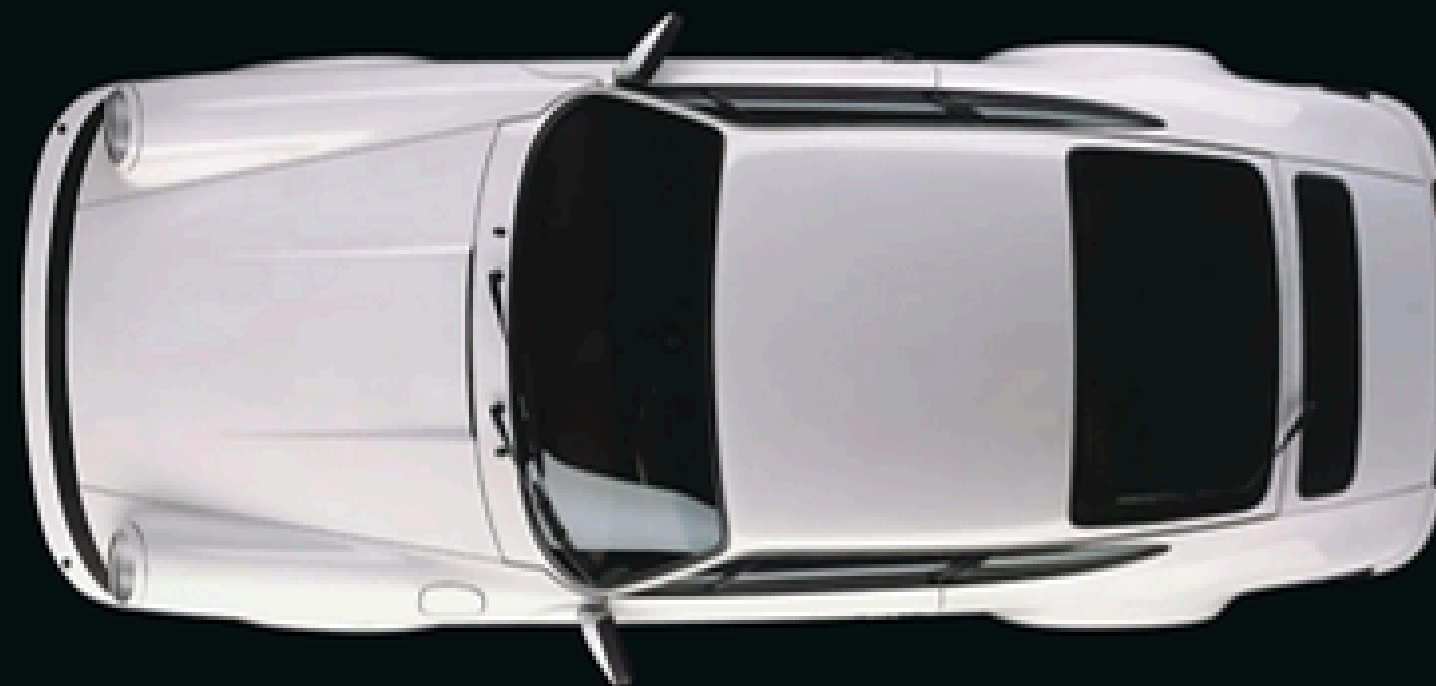

LEADING THE NEXT GENERATION OF AUTOMOTIVE PROTECTION FILMS

OUR STRENGTHS

PREMIUM QUALITY

Apeax is a global leader in advanced vehicle protection film solutions, providing internationally certified products that set the benchmark for quality and innovation. Our commitment is to deliver superior protection while optimizing profitability for our clients, offering unmatched performance and value in every solution.

ADVANCED TECHNOLOGY

APEAX's R&D team leverages proprietary Nano Ceramic technology, high-quality TPU materials, and advanced German raw materials to create premium Window Tint films and PPF. Our products provide long-lasting protection, enhance vehicle aesthetics, and elevate overall appearance, ensuring a superior finish that lasts.

SETTING NEW STANDARDS

At Apeax, our team brings decades of expertise and professionalism to the automotive film industry. With extensive knowledge in Paint Protection Film and Window Tint, we've developed advanced solutions that set new standards in quality and performance.

Our films, featuring hydrophobic and self-healing top coats, are designed to offer superior protection and exceptional gloss. Backed by years of hands-on experience, the Apeax team is dedicated to providing the best products and support for both installers and car owners.

EXTENSIVE EXPERIENCE

With a combined 40+ years of expertise in the automotive care industry, APEAX leadership team possesses a deep understanding of today's market needs. Our team of experts is dedicated to offering tailored consulting and support, empowering partners to reduce costs and maximize profitability at every stage.

ELEVATING SUSTAINABLE VALUE

APEAX proudly utilizes cutting-edge manufacturing technologies that adhere to the highest standards, ensuring superior quality for every product through rigorous management processes. With a global distribution network, we are committed to fast, flexible order fulfillment, meeting the stringent demands of the automotive industry around the globe.

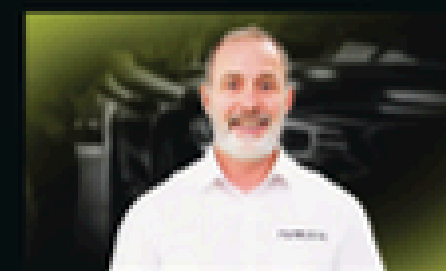

BOARD OF DIRECTORS

GLOBAL SUPPLY CHAIN

APEAX is committed to ensuring a stable supply chain and fast delivery. We are always ready to offer in-depth technical support, meeting the needs of customers around the world. With a fully stocked 3PL warehouse in California and Florida we are able to ship products quickly and efficiently!

Apeax window tint films come in various levels of visible light transmission, providing UV protection, privacy and zero interference with electronic signals, while offering complete health protection.

APEAX

XTREME NANO CERAMIC TINT

Apeax Xtreme Nano Ceramic Tint delivers superior UV protection and heat rejection, boosting both comfort and safety inside your vehicle.

Designed for long-lasting clarity and durability, it ensures optimal visibility while keeping your car cool and protected.

7-Layer Window Film Construction

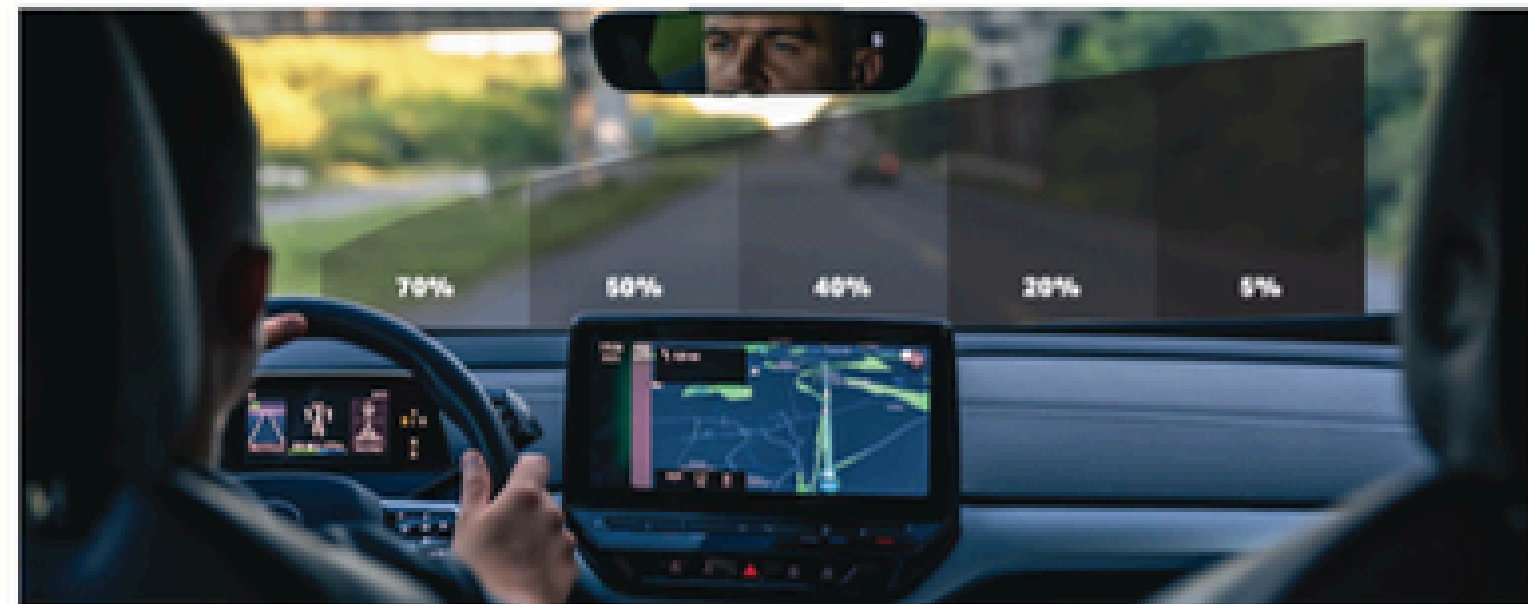

XTREME UV CARBON TINT

Apeax UV Xtreme Carbon Tint is designed with cutting-edge technology, specifically tailored for exceptional UV and infrared (IR) rejection, boosting vehicle comfort and protecting passengers. This high-performance tint significantly reduces heat build-up, ensuring a cooler interior even during intense sunlight.

Our Technologies:

- Superior heat rejection
- Zero interference with electronic signals
- Enhances visibility and reduces glare
- Completely blocks harmful UV rays

Application Positions for Window Films

APEX PAINT PROTECTION FILM

Long-Lasting Performance. Unmatched Durability.
The Ultimate Solution For Long Term Protection.

APEAX PAINT PROTECTION FILM

The Ultimate Solution For Long Term Protection

10 YEAR WARRANTY

Apeax PPF stands out with its fast self-healing scratch recovery, special material that resists paint corrosion, high-heat resistance, non-oxidizing properties, crystal-clear transparency, and long-lasting durability.

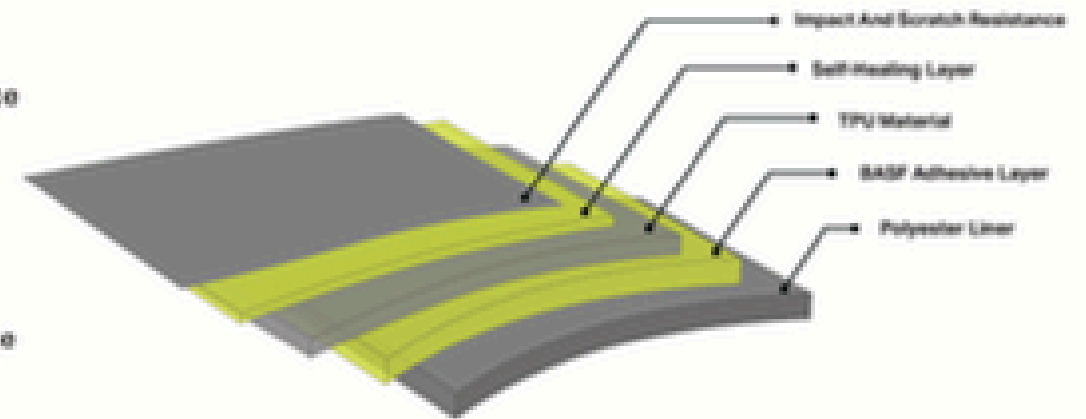

APEAX

APEAX PPF delivers complete protection, preserving your vehicle's original beauty with cutting-edge TPU material and advanced self-healing technology. It keeps your paint looking pristine by guarding against stone chips, scratches, UV rays, and harmful chemicals. Built for exceptional durability, APEAX PPF ensures a long-lasting shield, with protection that can last.

KEY BENEFITS:

- Impact And Scratch Resistance
- Self-Healing Technology
- Paint Corrosion Protection
- Easy Installation
- Hydrophobic Properties
- Stain And Yellowing Resistance

APEAX XTREME GLOSS PPF

Apeax's premium high-gloss paint protection film, measuring 7.5 mil thick, is engineered with ultra-durable adhesive from Germany. Made from advanced TPU material, it offers rapid self-healing from scratches and boasts an impressive elongation rate of over 300%. Resistant to chemicals and stains, this film provides exceptional durability and is backed by a 10-year warranty for lasting protection.

Offers the same advanced protection as the gloss version, including self-healing technology, high durability, and resistance to UV rays, chemicals, and scratches. With a true matte finish, it delivers the same robust performance while giving your vehicle a distinct, stylish appearance.

APEAX XTREME MATTE PPF

APEAX XTREME GLOSS BLACK PPF

Our Gloss Black PPF provides all the superior protection of Xtreme PPF with a striking glossy black finish. It features the same self-healing, UV resistance, and durability, offering both style and protection.
